CUSTOMER TESTIMONIAL

CUSTOMER & TEST PROFILE

They Reported:

This past weekend I had the opportunity to use your Petron Plus Formula 7 Engine Conditioner in my racing engine. We were in the Mr. Gasket Challenge as the favored car to win. All weekend we noticed the oil pressure becoming lower with each run, until the final round of qualifying where we had NO Oil Pressure at all.

We were afraid we were going to be unable to run the race until Ernie from Compucar suggested we try your product. I went over and your at your distributors engine running without oil, your distributor gave me two bottles of Petron Plus Formula 7 Engine Conditioner .

CUSTOMER TESTS & REPORTS

We ran the car, Won the race, and finished with oil pressure.

When we got home and got the engine apart we found that we had spun a main bearing and broke a main cap. The Petron Plus Formula 7 Engine Conditioner had freed up the bearing enough that we had minimal damage and will use the same parts again.
