

PETRON PLUS™ FORMULA 7

GSA, REGION 8

- ▶ GENERAL SERVICES ADMINISTRATION
- ▶ IMPROVED ENGINE PERFORMANCE
- ▶ INCREASED FUEL MILEAGE
- ▶ NO ENGINE FAILURES SINCE USING PETRON PLUS

CUSTOMER TESTIMONIAL

CUSTOMER & TEST PROFILE

I have been treating the oil in eight GSA Chevrolet police cars operated by officers of the Bureau of Indian Affairs on the Wind River Reservation at Ft. Washakie, Wyoming.

Because of the severe use these vehicles incur; long periods of non-stop operations, excessive idling, high mileage approximately 5,000 miles per month; the engines failure was common prior to retiring vehicles from the fleet.

CUSTOMER & TEST & RESULTS

I have used Petron Plus Formula 7 products in several different vehicles over the years, and can honestly say it improved engine performance and in each case always increased miles per gallon.

Since I began treatment of the engines with Petron Plus Formula 7 Engine Conditioner in these vehicles, no engine failures have occurred.

Drivers of the vehicles also report increased gas mileage after the treatment.

Dear Mr. Clark:

I began experimenting with your Petron Plus oil additive several years ago. I have used the product in several different vehicles and can honestly say it improved engine performance and in each case always increased miles per gallon.

I treated the oil in my Toro lawn mower and the engine began to start on the first pull. Something it never did before. I also treated the oil in my Homelite chain saw after using one tank of gas. I had to adjust the carburetor settings as the RPM had increased considerably and the chain wouldn't break or stop.

I have been treating the oil in eight GSA Chevrolet Caprice police cars operated by officers of the Bureau of Indian Affairs on the Wind River Reservation at Ft. Washakie, Wyoming. Because of the severe use these vehicles incur; long periods of non-stop operation, excessive idling, high mileage approximately 5,000 miles per month; the engine failure was common prior to retiring vehicles from the fleet. Since I began treatment of the oil in these vehicles in 1987 with your Petron Plus Friction Reducer, no engine failures have occurred. Drivers of the vehicles also report increased gas mileage after treatment. I am very satisfied with your product.

Sincerely,

J. E. Woitaszewski
